Here's the most recent information we have for the Arbor Ridge Homeowner's Association:

Arbor Ridge Contact info: Tom Mulka, VP, 4517 Baswood Lane
Victoria Prater,
Sec'y, 4436
Cascara Lane

Suggestion--can you use your sign-in lists of residents who attended Availability Sessions, see if there are any with addresses on Basswood, Hatch, Arborview, Cascara, Spruce, or Redwood.

How close do you want them to the Lockformer site--anywhere in the subdivision (goes north to Warrenville Road), or closer to Ogden?

If this doesn't help, let me know and I will try additional sources.

I will talk with Arthur and recommend that the lights be pointed toward the ground.

Do you have a contact of the Civic Association or any residents north of the site in the Arbor Ridge neighborhood. We would like to have one of the residents volunteer to use their property as an air monitoring station.
